PROFESSIONAL SUMMARY

BTech AI & Data Science student and freelancer with expertise in Machine Learning, Computer Vision, and Full-Stack Development. National finalist in Accenture Innovation Challenge 2024 with a track record of building AI solutions for accessibility, safety, and automation. Passionate about learning, public speaking, and team collaboration.

EDUCATION

Akshaya College of Engineering and Technology, Coimbatore

BTech – Artificial Intelligence and Data Science (2022 – 2026)

CGPA: 8.5

Bharath Vidya Bhavan MHSS, Palani

Higher Secondary Certificate (2021 – 2022) – 81.83%

Secondary School Leaving Certificate (2019 – 2020) – 97.8%

EXPERIENCE

Freelance AI/ML Engineer & Full-Stack Developer (2024 – Present)

- Delivered 7+ AI/ML and full-stack projects for clients across domains including healthcare, accessibility, finance, and travel.
 - Projects include NLP, Gen AI, Computer Vision and Neural Networks.
-

CERTIFICATIONS

- Oracle Cloud Infrastructure Foundations Associate – Oracle University
 - Full Stack Development with Python and Django – Robomatiic
 - Marketing & Analytics – Advanced – Great Learning
 - Generative AI for Beginners – Great Learning
-

TECHNICAL SKILLS

Languages & Tools: Python, SQL, Scikit-learn, OpenCV, TensorFlow, PyTorch, Keras, XGBoost.

Specializations: Machine Learning, NLP, Transformers, Computer Vision, OCR, Predictive Analytics.

SOFT SKILLS

Public Speaking • Story Telling • Content Writing • Problem Solving • Team Management.

PROJECTS

Safetify – AI for Women Safety (2025)

- Built a deep learning system to classify distress sounds during emergency situations and alert nearby users within a 500m radius.
- Utilized RNN, CNN, LSTM, and SVM models with Google Distance Matrix API and Haversine formula for location tracking.

Intellivision – Visual Assistance for the Visually Impaired (2024)

- Top 25 finalist in Accenture Innovation Challenge 2024 (Ranked 22nd nationally).
- AI-powered assistant offering real-time environment narration and object recognition using YOLOv8, BLIP, and custom datasets.

SummarizeAI – YouTube Video Summarizer

- Built an NLP application that generates AI-driven summaries of YouTube video content.

Expense Manager using OCR

- Developed a tool to extract and analyze text from images for automated expense tracking.

Brain Stroke Prediction Model

- Built an ML model to assess stroke risks using patient data with classification algorithms.
-

INTERNSHIP

Data Science Intern, CodeAlpha (Aug 2024 – Sep 2024)

- Built ML models for Titanic survival and stock price predictions.
 - Gained hands-on experience in supervised learning, feature engineering, and model evaluation.
-

ACHIEVEMENTS & RECOGNITION

- **Top 25 (22nd Rank out of 500 projects)** – Accenture Innovation Challenge 2024 for Intellivision.
 - **Best Concept Award (2024)** – Project “Intellivision” - Computer vision for visually impaired.
 - **Best Contribution to Society Award (2025)** – Project “Safetify” – AI for women safety.
-

EXTRACURRICULAR ACTIVITIES

- **Radio Jockey**, Vaanampaadi FM (Present)
- **Film Maker** – Winner of 2 awards for the short film "Koduran" at Karpagam Institute of Technology.
- **Cultural Secretary (2024–2025)** – Akshaya College of Engineering and Technology.
- **Best Anchor Award** – Inter-college cultural event “Tharika 2K24”
